GitHub: https://github.com/JaswanthReddy2006 Mobile: +918309234766

Skills

Languages: C, C++, Java, Bash, Java script
Frameworks: React.js, Express.js, Node.js
Tools/Platforms: MySQL, AWS, Docker, GitHub, Git, Git Actions, MongoDB, Azure
Soft Skills: Self-Motivated, Team Player, Adaptability

Projects

Work Sync - Project Management and Workspace Dashboard | GitHub — Aug' 25

- Built a full-stack project management application (React.js/Node.js) featuring task tables, team chat, and document tracking.
- Constructed a full-stack project management application (React.js/Node.js) featuring task tables, team chat, and document tracking.
- Reduced component rendering times by 75% (1200ms to 300ms) by implementing localized state management and optimized data routing.
- Integrated a custom AI chatbot that processes project parameters to autonomously generate analytics and visualization charts
  Tech Stack: React.js, Node.js, Express, MongoDB, Vite, Recharts.

Secure Campus AI - A comprehensive automated attendance| GitHub — Mar' 25

- Created an automated security and attendance tracking system using Amazon Rekognition for real-time facial identification and matching against an S3 database of known faces
- Engineered a fully serverless, event-driven backend utilizing AWS Lambda for core processing, completely eliminating dedicated server management overhead.
- Developed a scalable data retrieval pipeline leveraging Amazon API Gateway and DynamoDB to serve attendance logs to client applications seamlessly.
- Condensed security response times by integrating Amazon SNS for instant email alerts on failed matches, and ensured continuous system health monitoring using Amazon CloudWatch.
  Tech Stack: Lambda, API Gateway, S3, Rekognition, DynamoDB, SNS, CloudWatch, IAM, Systems Manager (Parameter Store).

Training

Data Structures & Algorithms using C++ | GitHub | Certificate — Jun' 25 - Jul' 25

- Mastered data structures like **arrays** and **linked lists**, which improved my logical thinking speed significantly.
- Advanced a functional **Tic-Tac-Toe game** and compiled a portfolio of 4**50+ solved coding problems**
- Made using C++ and 2D Arrays to manage the game board logic. Utilized the Standard Template Library (STL) throughout the code to ensure efficiency and guarantee zero memory leaks.

Certificates

- Social Networks by NPTEL | Certificate — Nov' 25
- Cloud Computing by NPTEL | Certificate — Jun' 25
- Web Development by Free Code Camp | Certificate — Dec' 23

Achievements

Code of Duty Hackathon: certificate — Jan' 24

- Secured 5th Rank among 50 teams in an inter-university technical competition.

Education

Lovely Professional University — Punjab, India
Bachelor of Technology - Computer Science and Engineering; ***CGPA:7.87*** — *Since Aug' 23*

Narayana Jr college — Andhra Pradesh, India
Intermediate; ***Percentage: 88.2%*** — *Apr' 21 - Mar' 23*

Narayana CBSE High School — Andhra Pradesh, India
Matriculation; ***Percentage: 82%*** — *Apr' 20 - Mar' 21*
